Angel Heart Pajama Project's mission is to bring comfort, dignity, and hope to children in crisis, from infancy through age 18, throughout Southern Arizona. We provide new pajamas and age-appropriate books to children experiencing foster care, homelessness, abuse, neglect, illness, poverty, or other family hardships.

Our program addresses two essential needs: physical and emotional well-being through the comfort and security of new pajamas, and educational and developmental growth through the joy and benefits of reading. By combining these meaningful gifts, we help children feel valued, cared for, and secure while encouraging literacy, imagination, and a lifelong love of reading.
